

## THE TRADE REVIEW IS FULL OF HOPE

### ENDING OF COAL STRIKE ADDS MANY TO WORKING FORCE

**Heavy Excess of Imports—Failures For the Week Have Been Less Than Last Year in the United States and Canada—Dun's and Bradstreet Tell of Good Times.**

New York, Sept. 25.—R. G. Dun & Co.'s weekly review of trade will say in its issue:

"Gold imports have begun direct from England and France, besides the arrival of \$4,000,000 at San Francisco from Australia for wheat exported. The gold received there and started for Europe amounts to \$6,500,000 in two days, and the advance in its rates by the Bank of England to 2½ per cent seems little likely to check the movement, in view of heavy merchandise balances due this country and a rise in the rate of interest here. The August excess of merchandise and specie exports over imports was not far from \$42,000,000, and the September excess will evidently be larger, unless shipments of gold are considerable. Merchandise exports from New York in three weeks of September have been 15.3 per cent over last year's, and imports 13.7 per cent less, and like changes on the whole trade for the month would result in net exports of \$53,000,000 merchandise, besides silver.

"Produce markets have been uncertain, closing a fraction higher for both wheat and corn, while the decline in cotton continues. The corn estimate most credited by the trade is only 1,750,000,000 bushels, but is coupled with figures tending to show a surplus from the last crop of 400,000,000 over ordinary consumption. Wheat has gained a fraction for the week. Western receipts are exceeding last year's, and foreign estimates now agree in making the probable requirement from this country over 100,000,000 bushels greater than last year.

"The official ending of the western coal strike adds many thousand men to the working force in the mines, and others in manufactures using bituminous coal. The anthracite strike has substantially ended, and no extensive labor disturbance is threatened. The output of coke is now 125,000 tons, and the price is also advanced. Some branches of the iron and steel industry are clearly no longer able to keep up with their orders. Others are very fully employed for some months ahead, and with all the demand is increasing. The average advance of iron and steel products from the lowest point is 8.2 per cent.

"Wool sales at Boston have decreased a quarter, but manufacturers are still unable to find profits in goods with wool at present prices. Reported sales of wool are more than double those of the most prosperous years.

"Failures for the week have been 209 in the United States, against 315 last year, and twenty-eight in Canada, against thirty-nine last year."

Bradstreet tomorrow will say:

"There is a check to the inward sweep of demand in staple lines noticeable throughout the country for the last six weeks. The yellow fever quarantine, which extends from Texas to Georgia, has brought wholesale business to a practical standstill throughout the greater portion of the region embraced by the gulf states. All centers of distribution in eastern, middle and western states the recent activity in dry goods, hats and hardware had fallen off, but at the northwest and on the Pacific coast buying by interior merchants and the free distribution of merchandise continue to be features. Demand for heavy textile fabrics has been stimulated by colder weather, and St. Louis merchants say the yellow fever scare will have no effect upon trade in that city, as southern merchants had supplied themselves there before the quarantine was enforced. Favorable features of the week are found in sharp advances in prices for iron and steel, billets and rails and a prospect that iron and steel prices will go higher in the near future. Wool is also higher, and woolen goods for 1898 delivery are up to 10 and 15 per cent, with the outlook favoring a further advance. The increased volume of general trade is also stimulated by the continued heavy movement of cereals to tide water, the almost unprecedentedly large quantities exported each week and the increased number of people finding employment in industrial and commercial lines, as compared with a year ago, together with the tendency of gold to come from abroad.

"Exports of wheat (flour included as wheat) from both coasts of the United States and from Montreal this week amounted to 5,623,493 bushels, compared with 6,289,949 bushels last week. Exports of Indian corn aggregated 4,022,142 bushels, compared with 3,901,000 bushels last week."

### STRIKE BREAKS OUT AFRESH.

Scanton, Pa., Sept. 25.—Several hundred miners in the Edgerton, Last Chance and Eyebrow mines of Simpson & Watkins have struck and 600 miners are out. A further strike is threatened in the big Northwest mine, also owned by Simpson & Watkins. The Edgerton men went out on Monday, but returned to work pending a conference with Superintendent J. L. Crawford. Their demands being refused Friday morning, they did not go to work. The

Last Chance and Eyebrow men had made the same demands, which had to do with the dockage system. Superintendent Crawford has informed the men that the mines will be closed for the winter if they do not resume work.

### DEATH IN A MINE SHAFT.

Two Killed and Many Injured at Marion, Ill.

Marion, Ill., Sept. 25.—One dead, another imprisoned and undoubtedly killed, three fatally and six seriously injured, is the appalling record left by a disastrous mine explosion which occurred at the Williamson county coal mines at Johnston City. The dead, Frank Farraro, Italian. Fatally injured: Unknown, undoubtedly killed instantly; Peter Casper, Russian, burned internally, cannot live; Joe Barlow, American, 16 years old, left leg broken twice, right leg mashed and head cut, will die; G. Grietti, an Italian miner, injured internally, burned badly about face and body. Seriously injured: Robert Britton, arm broken; J. Higgins, driver, cut on the head and body; M. Owens, arm and face burned; Dave Richmond, head badly cut; Robert Richmond, bruised; H. Smith, burned.

A quantity of gas had accumulated in an entrance about 200 yards south of the big shaft during the night, and after the forty-five operatives had descended the gas became ignited by their lamps, and a terrific explosion resulted. The cage that rested at the bottom of the shaft was blown fifty feet upward, and a deadly volume of smoke and gaseous vapor was sent whirling out of the mouth of the shaft. In an instant all of the machinery was stopped. A signal from those at the bottom told the engineer there were some below uninjured. The work of rescuing the imprisoned men began at once. Soon the insensible bodies of the dead and dying were borne upward, and the groans of the injured added to the horror.

### Panic at a Fire.

Toronto, Ont., Sept. 25.—Fire originating in a woodshed in the rear of the Musée theater on Yonge street Friday night communicated to a large warehouse adjoining the theater. The actors in the theater were preparing at the time for a performance and there was a wild scramble to get out of the building. The theater was badly damaged by fire and smoke. A fire engine stationed at the corner of Adelaide and Victoria streets was left with the horses hitched to it. A jet of steam shot out of the safety valve of the engine with a loud explosion. This frightened the horses and they ran away down the crowded street. The engine ran over Bertie Escott, 11 years old, killing him instantly. Seven firemen were so badly crushed between the engine and a wall that they had to be removed in an ambulance to the hospital. Half a dozen citizens were also more or less injured.

### Murdered His Sweetheart.

Marion, Ind., Sept. 25.—A brutal and cowardly murder was committed ten miles southeast of this city. Noah Johnson, the 22-year-old son of John F. Johnson, a farmer, shot and instantly killed his sweetheart, Macie Mang, the 17-year-old daughter of Martin Mang. Jealousy was the cause. The young couple had quarreled last night on their way home from prayer meeting, and Miss Mang announced that she wanted nothing more to do with Johnson. While on her way to school with two companions the jealous lover slipped up behind the party and shot his sweetheart through the head twice. He then fled across the cornfields to Gas City, where he gave himself up to the officers.

### Ship Ashore and Crew Missing.

Manitowoc, Wis., Sept. 25.—The schooner A. R. Upright, which has been missing since last Friday, was found ashore three miles south of here Friday and brought to this port. No trace of the crew could be found. It is thought the schooner went ashore a week ago last night during the heavy storm. Farmers in the vicinity knew of the wreck, but made no report of it. From the circumstance that nothing has been heard of the members of the crew, it is feared that they were lost before the schooner went upon the beach.

### Alleged Murderer Under Arrest.

Spring Valley, Ill., Sept. 25.—The police of this city succeeded in arresting Martel Harris, colored, after a desperate resistance. He is charged with the murder of an Italian at Ladd named Michael Vicetti, who detected him robbing his residence. As the Italians of this city would undoubtedly lynch the negro, he was hurried to the county jail at Princeton to escape the mob. Harris is said to have confessed the crime.

### Committee's Report Adopted.

Columbus, Ohio, Sept. 25.—The Society of the Army of the Cumberland elected officers as reported by the committee. General James H. Wilson was added as vice president from Delaware. The next meeting is to be held in Detroit, Sept. 22, 1898. Captain Charles E. Belknap was elected as orator for that meeting. Committees were appointed on publication, memoirs, Sheridan statue and Chickamauga Park.

### Pard Lines for a Scalper.

Atlantic City, N. J., Sept. 25.—Stephen Murray of Atlantic City was convicted in the Atlantic County court at Mays Landing of scalping tickets and selling passes of the Pennsylvania railroad and sentenced to imprisonment for three months and to pay a fine of \$100 and costs.

## GERMANY TO MEDDLE IN OUR AFFAIRS

### THINKS OF BACKING SPAIN AGAINST UNITED STATES.

**Austria to Intervene—She is Also Reported Eager to Burn Her Fingers—The London Morning Post Says Spain Would Simply Be Thrashed In Such a Conflict.**

Paris, Sept. 25.—The Figaro warns the government that Germany is earnestly considering whether Europe should "allow the United States to drive Spain out of Cuba," and recalls the fact that the war of 1870 arose from the mistakes made by French diplomacy in regard to Spain.

London, Sept. 25.—The Daily Graphic publishes an interview with Admiral de la Cammack, naval attaché of the Spanish embassy in London, in the course of which he says he does not believe that any definite plan of naval campaign exists to be followed in the event of war between Spain and the United States.

He adds that if such a plan existed it must necessarily be modified by assistance received from any other European power.

The correspondent of the Daily Telegraph at Vienna says:

"I learn from a reliable source that the Vienna cabinet would immediately intervene in a conflict between Spain and the United States. The news of the ultimatum created excitement in political circles, and the universal opinion was that such action would be unjustifiable."

The Morning Post publishes a two-column article comparing the military and naval forces of Spain and the United States. The writer concludes as follows:

"In the event of war victory would rest with the power having the largest reserve forces. The United States, even with gnashing teeth, could afford to wait; while delay would be fatal to Spain, even if it brought with it a temporary victory. Nevertheless, if war broke out, some portions of the American seaboard would undergo unpleasant experiences."

### Cuban Armies Need Quinine.

Washington, Sept. 25.—Col. Aguirre, the Cuban agent here, has received advice from President Cisneros which state that the latter has been sick with the prevailing malarial fever. He says that the army is in need of quinine and other medicines. Col. Aguirre has issued a call requesting contributions of that character.

Tampa, Fla., Sept. 25.—Information has reached this city that one of the recent filibustering expeditions from the United States to Cuba had been captured off the southern coast of Pinar del Rio by the Spaniards.

It is reported that the American vessel was sunk, and the nineteen men aboard either killed or drowned. Clothing taken from the vessel is being worn on the streets of Havana by Spanish soldiers.

### Havana Five Days Without Beef.

Key West, Fla., Sept. 25.—There has been no beef in Havana for five days, and there are no prospects of any. Weyer cannot get cattle in Cuba, and keeps the duty so high as to prevent importing them from Florida.

Spanish cattle buyers came over to Florida, and some came on the last boat bound to Punta Brava, but they have no vessels, and quarantine regulations are so strict as to make transportation expensive. On account of a fifteen-day detention upon return, and the prohibition duty, the outlook for the cattle trade is discouraging.

### Spanish Victories Are Reported.

Havana, Sept. 25.—It is announced from Spanish headquarters that during the night of Wednesday last a number of insurgents attempted to enter the town of Socorro, province of Santiago de Cuba, but were repulsed with a loss of several men killed. The Spanish commander of the town and four soldiers were killed, and twenty-two men wounded. The insurgent leader, Salome Morejo, it is added, has been killed in the province of Matanzas.

### DENIED IN HIGH PLACES.

Spanish Officials Say No Ultimatum Has Been Given.

San Sebastian, Sept. 25.—"Notwithstanding all rumors to the contrary, it is certain that the American minister has not delivered any written ultimatum to the Spanish government, nor has an ultimatum been communicated to representatives of the powers. It is probable he may have addressed a letter to the Spanish government stating in the most courteous and friendly form the wishes of the United States government in regard to the Cuban question, with an expression in most courteous and diplomatic language of a sincere hope that the Spanish government may reach satisfactory conclusions during the coming month of October." The preceding is a dictated statement from an official most competent to declare on the exact condition of the Cuban situation.

### Morgan & Co. Deny It.

New York, Sept. 25.—The report that J. P. Morgan & Co. had been asked to take control of the refunding operation of the Louisville and Nashville was officially denied Friday.

## DEATH RATE HIGH IN RIVER TOWN.

### IN NEW ORLEANS IT NEARLY EQUALS EPIDEMIC OF 1878.

**Is About 15 Per Cent—Jackson, Miss. Sadly Needs Nurses and Physicians—Mobile Reports Three Deaths, Among Them Being Rev. Father Murray.**

New Orleans, La., Sept. 25.—Eminent doctors believe that the work of the board of health is productive of good results, and that the fever is not spreading, but on the contrary, is being confined to localities. Thus far there have been a few less than 100 cases and fifteen deaths. The death rate is in the neighborhood of 15 per cent. In 1878 it was 16 per cent; so that up to the present time the disease is about as virulent as it was in the last great epidemic New Orleans had.

One of the sensations of the day was the announcement that the board of health had decided to prosecute Dr. Monluzin for having failed to report a case of suspicious fever. In one of the morning papers a few days ago Dr. Monluzin was quoted as saying that there was little, if any, fever in New Orleans, and that the prevailing sickness was Burmah, or sun fever, which he described as contagious or infectious, and quite likely to be attended with about the mortality of yellow fever. This morning Dr. Monluzin reported to the board of health the case of Miss Dreyfous, who, he said, was suffering with yellow fever. It was not long after this report was received that the board had to report the death of Miss Dreyfous. An investigation proved that Miss Dreyfous had taken sick about six days ago, and Dr. Monluzin had failed even to report the case as suspicious.

### Atlanta Patient Doing Well.

Atlanta, Ga., Sept. 25.—Dr. James F. Alexander, president of the board of health, furnished the following statement:

"I paid a visit to the yellow fever patient Miss Carrie F. Lemming, at No. 119 Auburn avenue. She is doing well; there are no unfavorable symptoms, and I regard it as a very mild case of yellow fever, and from present indications I do not fear serious results. So far as the spread of the disease is concerned there need be no apprehension among our people, as the conditions existing here, in my opinion, preclude the possibility of any danger from an outbreak of yellow fever in Atlanta."

"JAMES F. ALEXANDER, President of the Board of Health."

### Tennessee Quarantine Modified.

Nashville, Tenn., Sept. 25.—The state board of health raised the quarantine as to east and middle Tennessee and modified the quarantine as to west Tennessee. Persons from infected points can come to middle and eastern Tennessee, but must remain ten days under control of the board before going into west Tennessee. West Tennessee is still subject to a modified quarantine. Knoxville, Chattanooga, Nashville and Memphis asked for modifications of the ironclad quarantine, and the board issued the new orders.

### Three Deaths at Mobile.

Mobile, Ala., Sept. 25.—There have been three deaths and three new cases since the report handed out Friday at 2 o'clock. Dr. George A. Ketchum, president of the board of health, remarks that the sick are all dwellers in one-story houses, that is to say, sleep on the ground floor. He infers that the poison moves along the ground and preferably attacks those closest in reach.

### Rockford Man Stricken.

Rockford, Ill., Sept. 25.—Rockford friends have received word of the death of George Fox, formerly of this city, at McComb City, Miss., of yellow fever. He left a widow and seven children there and friends from here have been unable to get help to them, because the trains do not stop at that place, it being in the section afflicted by the scourge.

### Nurses Wanted at Jackson.

Jackson, Miss., Sept. 25.—A special train left Vicksburg for the vicinity of Edwards with four colored female nurses and such supplies as were needed. Efforts are being made to obtain white female nurses, and it is likely that some may be secured.

### Discriminating Duty Clause.

Washington, D. C., Sept. 25.—No attempt will be made to enforce section 22 of the Dingley bill and the discriminating 10 per cent duty it imposes pending action by congress. The disposition is not to accept the attorney-general's opinion as a final settlement of the issue, but as merely holding the subject in abeyance until congress acts. The principal opposition to the clause comes from the Boston and Maine railroad, whose influence dominates New England and whose freight traffic comes almost exclusively over the Canadian roads.

### Want No News Sent Out.

Mobile, Ala., Sept. 25.—The officials of this city are angry over the sending out of yellow-fever news, and a newspaper correspondent was placed under arrest for having telegraphed his paper the information that the mayor and the aldermen had left the city to escape the plague.

## TO WATCH THE JAPANS.

### More Warships Are Headed for Honolulu Harbor.

Washington, D. C., Sept. 25.—President McKinley is taking no chances in regard to the Sandwich islands. If Japan or the followers of Queen Lil attempt to kick up a fuss in Hawaii they will have to confront at all times a naval force from the United States whose commander is instructed to use force to preserve the peace as well as to uphold the dignity of the president government. This is the immediate result of the ratification of the annexation treaty by the Hawaiian senate. When the gunboat Wheeling was ordered from San Francisco to Honolulu it carried hurried instructions to Minister Sewall to hold as large a force as possible until such time as the Japanese cruiser Naniwa had actually been reported in some far away port.

There is a belief that the Naniwa left Honolulu on an ostensible voyage to Japan, but really intended to return. American representatives in Japan have confirmed this belief, and hence the navy department is straining every nerve to keep the naval force of the United States at Honolulu up to maximum. There are now in Hawaiian waters the protected cruiser Philadelphia with ten guns, and the third-rate gunboat Bennington with six guns. The gunboat Yorktown, of the same tonnage and armament as the Bennington, is on its way to Honolulu from the Asiatic station, and orders are now on the way for the Yorktown to remain in Honolulu until the Naniwa is definitely out of the way. The latest ship to leave is the composite gunboat Wheeling, only recently completed at San Francisco, and which still is due for a final trial trip.

Oriole town and all Maryland is in mourning tonight over the defeat of the three-time champions by the Boston, and the Birds tumble from the top perch to give way to the Beaneaters. It was the first game of the series which is in all probability to decide the championship of 1897, and the greatest crowd of the season—nearly 13,000 persons—gathered to see the opening contest. ## MAY IGNORE JOHN BULL.

### This Likely to Be the Attitude of the Seal Question.

Washington, D. C., Sept. 25.—As an answer to Great Britain, who, after seeming to agree to a conference between Canada and the United States, to discuss certain phases of the Bering Sea question, has declined to be party to the conference if Japan and Russia are participants, it is not unlikely that the delegations of the United States, Russia, and Japan will proceed with the consideration of the questions at issue without regard to whether or not Lord Salisbury changes his mind. This may, however, cause some delay in the meeting of the conference.

General John W. Foster, the special ambassador of the United States seal fisheries negotiations, secured the acceptance of Russia to an invitation to participate in the conference during his visit to St. Petersburg this summer. Japan also sent an acceptance.

### End of the Hazleton Inquest.

Hazleton, Pa., Sept. 25.—The coroner's jury investigating the death of the Lattimer victims met again Friday and heard additional testimony. Nothing new was adduced, with the exception of the statement made by Daniel Ferry that after the first volley Deputy Wrought shot at a man on the railroad tracks. After a half dozen witnesses had been examined Coroner McKee closed the inquest and the jurymen retired. They will meet this evening to deliberate and decide upon a verdict. The Lehigh Valley Coal company's men at Jeaneville held a meeting this afternoon and unanimously agreed to return to work next Tuesday. The company has made no concessions and the resumption at Jeaneville now puts an end to the strike. The troops are preparing to leave.

### Nebraska Bank Goes Under.

Davenport, Neb., Sept. 25.—The State Bank of Davenport closed Friday. In the notice to the public the reason assigned was that it could not secure borrowers enough for its large surplus of deposits. It is said Nebraska banks have over 70 per cent of their deposits in their vaults because of the great surplus in the state.

## CAN WAUPACA BUY THE WATER WORKS

### THE JANESVILLE CONTROVERSY HAS A PARALLEL.

**City Proposes to Issue \$120,000 Bonds But Heavy Tax Payers Have Begun Injunction Proceedings Claiming That the Legal Limit of Indebtedness Will be Exceeded.**

Waupaca, Sept. 28.—[Special]—Wealthy citizens have engaged attorneys to fight against the city's issuing \$120,000 bonds for the purchase of the water works plant by the city. They claim the amount is above the legal limitation. The point has been discussed in other Wisconsin cities and is the same as was brought up in Janesville a year ago.

No \$15,000 Verdict for a Leg.

Ashland, Sept. 25.—[Special]—Judge Parish directed a verdict for the defense this morning in the case of Olsen vs. the Doherty Lumber Company. The plaintiff sued for \$15,000 damages for getting his leg caught in a saw mill. The case will be appealed.

## INSANITY NOT PROVED.

### Defense in Luetgert Case Fails to Make Expected Point.

Chicago, Sept. 25.—This wasn't a very encouraging day for Adolph L. Luetgert. Neither the witnesses nor the court seemed to contribute to his ease of mind or to the success of his side of the case. The defense made the first attempt to show that the missing woman was insane and wandered away into the wilds of Wisconsin while demented, but the result was far from encouraging to the sausage-maker and his friends. Judge Tuthill refused to admit conversations that occurred three months before the murder is said to have been committed, and the evidence the defense succeeded in getting before the jury was inconsequential, as the court himself said. Attorneys Phalen and Vincent called Mrs. Amelia Kaiser, an old neighbor of the Luetgerts, to the stand and tried to prove through her that the night of May 1 Mrs. Luetgert acted very peculiarly and that she gave the witness four oranges for her children.

"That doesn't prove anything," said Judge Tuthill.

"Well, she never did it before," said Attorney Phalen.

Judge Tuthill peremptorily forbade the defense to introduce as evidence the remarks and conversation of Mrs. Luetgert more than a week prior to May 1. The defense abandoned that line of examination with great reluctance.

"Then we can't show the woman was insane," said Attorney Vincent with much feeling.

Following the example of yesterday the defense spent most of the time impeaching the testimony of the Schimpke girls and trying to convince the jury that Mrs. Luetgert was seen alive several days after the time the state claims she was murdered at the factory. Frank Scheb, a farm hand living near Spring Bluff, and William Smith of the Kenosha police force, were the two new witnesses on the latter points. Both said they saw a woman May 5 who looked like the pictures of Mrs. Luetgert.

### Great Hurricane Coming.

Ottawa, Ont., Sept. 25.—Professor Wiggins predicts a great hurricane. He says: "The announcement by the marine department that a hurricane is now moving up the Atlantic coast from the West Indies is a meteorological event of more than common interest. That a great storm is near is a meteorological fact. The moon will be in conjunction with Jupiter and Mercury September 25 and Mars September 27. The moon crossed the celestial equator September 25, moving southward. She will be in conjunction with the sun September 26 at 1 o'clock p. m. London time and will be at her perigee or nearest point in her orbit to the earth September 28. These are all or nearly all dangerous elements to the mariner, for they indicate a storm the afternoon of Wednesday, September 29, with high tides on the North American coast."

### To Prevent Burial Alive.

Washington, Sept. 25.—The subject of premature burial is just now attracting interest in Italy, according to a report of United States Consul Mantius at Turin. He says that, realizing that there is at present no infallible test that may be applied to prevent the horrifying cases of persons buried alive, a number of prominent physicians and laymen are at work preparing reports on the subject. These will be made the striking feature of the medical department of the national exposition next April at Turin. Reports of a similar kind are expected from all over the world, as prizes will be offered for the best solution of the problem, and the consul says instinctively good to the cause will result if the people of the United States interest themselves in it.

### Has \$1,000,000 Reserve Fund.

London, Sept. 25.—The annual report of the Amalgamated Society of Railway Servants of the United Kingdom, which has just been filed with the statistical department of the government, sets forth that with a total membership of 45,000 the society has reserve funds invested in bonds and other securities to a total of \$1,000,000.

## O. F. NOWLAN BUILDS THE C. & N. W. DEPOT

CONTRACT LET FOR A \$25,000  
BRICK STRUCTURE.

Must Be Completed by Feb. 1, 1898  
and Men Will Begin Moving the  
Old Depot Away Next Monday—  
First Excavations Will be Made  
Thursday.

The contract for the new C. & N. W.  
depot goes to Oscar F. Nowlan. Mr.  
Nowlan was called to Chicago yester-  
day morning and was notified of the  
award.

His bid was lower than any sub-  
mitted by other contractors, and added to  
this was the belief of C. & N. W. offi-  
cials that with Mr. Nowlan in charge  
the work would be pushed through.  
His ability in handling contracts of  
the same nature had been proven so  
thoroughly that perfect confidence  
was expressed. He will have charge  
of everything but the heating facilities.  
Must Be Finished By Feb. 1.

The contract provides that the depot  
shall be finished Feb. 1, the price be-  
ing \$25,000. It is to be built of Jeffer-  
son white brick with foundation and  
trimmings with blue Bedford stone.  
The roof will be of slate and the cor-  
nices of galvanized iron.

Chief Engineer Blount of the C. &  
N. W. will have a gang of men here  
Monday to move the depot building  
far enough to one side so the excava-  
tions can begin for the foundation of  
the new building. Workmen will be  
begin to break ground for the new build-  
ing Thursday morning at seven o'clock.  
Jas. Sherer having been placed in  
charge of this work and of the ma-  
sonry.

### How the Depot Will Look.

According to the plans the new  
building will be at the north end, and  
will be two stories in height and forty-  
five feet wide. On the upper floor will  
be an office for the division superin-  
tendent and the operators. On the  
lower floor will be a main waiting  
room 38 by 42 feet, a woman's room  
28 by 28 feet, the ticket office and  
proper toilet rooms. A porter-cabier will  
enable persons to reach the depot in  
conveniences in and kinds of weather.  
The baggage and express building  
will be separate from the main build-  
ing. The entire length of the depot  
will be 224 feet with 300 feet of shed  
running from Academy street and an  
additional length of shed of 30 feet  
extending over the rest of the plat-  
form, the entire platform of 600 feet  
being covered with an ornamental  
sided constructed of iron.

### Built in Colonial Style.

The style of architecture is colonial.  
The buildings are to be of stone and  
brick with tiled roofs. It will be a  
modern, handsome structure in every  
particular, and much more imposing  
than the depots in either Oshkosh or  
Fond du Lac.

The center of the new depot will  
stand about where the present depot  
is now located but the structure being  
so much larger, will extend much  
nearer Academy street and much  
further south.

### Real Estate Becomes Active.

Real estate in the vicinity of the  
depot site, has taken a jump. Several  
sales were reported today. The Con-  
cannon property, corner of Milwaukee  
and Academy streets, was sold by  
Winans & Russell to Victor P. Rich-  
ardson. A deep vacant lot on Marion  
street between Milwaukee and Wall  
streets was sold by F. C. Burpee to A.  
P. Burpee. Several other deals are  
under consideration.

### DOCTORS TO EXCHANGE VIEWS

Central Medical Society Meets at Reeds-  
burg on Next Tuesday.

The Central Wisconsin Medical soci-  
ety will hold its second quarterly  
meeting at Reedsburg next Tuesday.  
A number of the Janesville physicians  
will be in attendance. Dr. James  
Mills is president of the organization  
while Dr. J. F. Pember is a member  
of the board of censors.

A morning and an afternoon session  
will be held. A banquet will be served  
at 1:30 o'clock. During the morning  
Dr. J. M. Evans, Jr., of Evansville,  
will speak on Euresis. The discus-  
sion is to be opened by Dr. James  
Mills of this city.

### WILL REPLANK THE BRIDGE

Material Has Arrived From Wausau For  
The Monterey Work.

Monterey bridge will be replanked  
next week. Two cars of heavy plank  
billed to David Jeffris have arrived in  
this city from Wausau, and the work  
on the bridge will be rushed through  
with all possible haste.

## LESS DAIRY BUTTER IS MADE THE CROP IS SHORT AND TUBERS HIGH

Farmers Are Selling Milk to the Cream-  
eries—Butter Advancing.

City grocers say that Rock  
county farmers are sending in very  
little butter. This is largely due to  
the operation of the numerous cream-  
eries, which consume the milk that  
heretofore was turned into dairy but-  
ter.

On Monday of this week the Elgin  
price for best creamery butter was  
made at 20 cents, a jump of 2½ cents.  
The next price will be made on the  
coming Monday. This quotation gov-  
erns the wholesale selling price of but-  
ter in many centers, and is the basis  
of transactions used by many of the  
Janesville grocers.

The drought throughout the north-  
west and particularly in this section,  
has caused a material falling off in the  
milk supply. For this reason, butter  
is expected to be higher before the Oc-  
tober rains set in.

### HAS SOLD MATTIE E. GOULD

Former Milk Wagon Horse Develops \$350  
Worth of Speed.

Mattie E. Gould, the speedy Janes-  
ville trotter, who but a short time ago  
was hauling a milk wagon about the  
streets, was sold this week by her  
owner, Joseph Heald, to Dr. F. S.  
Whitman of Belvidere, Ill. The price  
was \$350. Mattie E. Gould's trotting  
career is a queer one. Heald bought  
her for a nominal sum, of a local milk  
peddler. The best of training was  
given her on the local track, and she  
soon turned out to be a "fast one." She  
captured a piece of money at all the  
Illinois race meets in the last six  
weeks.

### MADE 2,500 PLOWS THIS YEAR

Janesville Machine Company Had a Big  
Season—Prospects Are Favorable.

Fully 2,500 plows have been made  
by the Janesville Machine company  
this year. As a record for the first  
season the figures are a source of  
much pride. Janesville plows have  
been popular wherever introduced.

When we started in to manufacture  
plows we did not know what the out-  
come would be," remarked a stock-  
holder "but the number of sales our  
agents have made this season leads  
me to think we can double the output  
another year."

### OFFICERS NAMED FOR LODGES

Mrs. F. A. Bennett President of Court  
Street Church Society.

The annual election held by the La-  
dies' Aid society of Court Street M. E.  
church, resulted as follows:  
President—Mrs. F. A. Bennett.  
Vice President—Mrs. R. F. Heiber-  
ington.

Treasurer—Mrs. E. E. Loomis.  
Secretary—Mrs. E. W. Lowell.  
Miss Naomi Burnham presided. It  
was decided to give church suppers  
through the winter.

### HARVEST SOCIAL A SUCCESS

Baptist Young People Make a Hit With a  
Pumpkin Pie Supper.

Fully one hundred and fifty persons  
ate pumpkin pie in the parlors of the  
Baptist church last evening. The  
Young People's society scored another  
hit by giving a harvest home social.  
It was a success beyond expectation.  
The rooms were tastefully decorated  
with grain and fruit and an appropri-  
ate musical and literary programme  
brought the evening's activities to a  
close.

### MASONS LAY A CORNER STONE

Janesville Lodges Will Be Represented At  
Mineral Point

Janesville Masons are looking for-  
ward with much interest to the laying  
of the corner stone of the new Masonic  
Temple at Mineral Point, which will  
take place next Monday. The local  
lodges will be represented. The cer-  
emonies will be imposing and it is  
expected that all the state lodge  
officers will be present besides large  
delegations from neighboring towns.

### WILL CARS HAVE HOODS?

Motorists Are Anxious About Prepara-  
tions For Cold Weather.

Motorists on the local street railway  
would like to know what G. W.  
Blabon intends to do about vestibuling  
the three new cars. A cold winter is  
coming on and the man at the brake  
suffers when there is no protector on  
a car.

J. W. Baggett, of Oak Grove, Fla.,  
had an attack of the measles, nearly  
three years ago, and the disease left  
him with very severe pains in the  
chest. "I thought I would die," he  
writes; "but to my great joy, I was  
saved by Chamberlain's Pain Balm." Pains  
in the chest nearly always indi-  
cate the approach of pneumonia, and  
by promptly applying this liniment on  
a flannel cloth, which should be bound  
on the chest, an attack of pneumonia  
may be prevented. It is always  
prompt and effective. For sale at 25  
and 50 cents per bottle by C. D. Stev-  
ens, Pharmacy corner Main and Mil-  
waukee street.

### Fresh Candies.

We received yesterday a fresh  
invoice of the famous original  
Italian chocolate creams, the  
kind that are equal to the  
far famed Allegretti. These  
candies sell at the remark-  
ably low price of 25 cents for a  
half pound box and 40 cents  
for a full pound box. Sat-  
born & Co.

### By the Machine.

Once Mary had a little lamb—that  
day has passed away; no lamb could  
follow up the pace our Mary sets to-  
day; for now she rides the silent  
steed, and does not act by halber;  
no lamb is witness to the race but  
in its stead two calves—N. Y. Sun

BEARS WORTH GOOD MONEY  
THIS YEAR.

Now Fifty Cents a Bushel—Cold  
Spring Weather and Decreased  
Acreage the Cause—Wisconsin  
Not the Only State Where the  
Yield Has Fallen Off.

There is every probability that po-  
tatoes will be high during the coming  
winter. In fact they are already up  
and up to stay. Home grown are  
selling at from 45 to 50 cents a bushel  
while a year ago they were going at  
25 cents. The crop is small only from  
2 to 5 tubers being found under a hill.  
The same story comes from the potato  
counties to the north.

This is not the only state where the  
potato crop has fallen off. The acre-  
age was reduced everywhere last  
spring owing to the low price at which  
the enormous crop of 1896 was mar-  
keted. Cold weather during the early  
spring, with rains in some localities  
also retarded largely the growth. In  
addition to this the hot and dry  
weather of the last two weeks com-  
bined with the work of the bugs has  
played havoc still further with the  
acreage and the total yield. The last  
government report places the average  
condition of potatoes 11.7 points below  
the average for the last ten years.  
The effect of the hot and dry weather  
is indicated by the falling of 11.2  
points as compared with the condition  
of August 1. The estimate of the  
present condition is 16.5 points lower  
than on September 1, 1896. Nebraska's  
shortage in the crop is estimated at  
from 70,000 to 300,000 bushels. The  
Michigan yield is estimated at 80 per  
cent of last year. Illinois will raise  
half a crop, and the decrease in Wis-  
consin is placed at one-fourth.

### MORRISSEY HAD A PAIN

Game Went to Fond du Lac In Con-  
sequence of the Shift.

Tom Morrissey had a pain in the  
Oshkosh Fond du Lac game and had  
to retire. Blakely started in to win  
the game and struck the first two men  
out. The third man hit to the infield.  
The ball was felled to first. Orall  
caught the ball and then dropped it.  
Then the fun started. Errors were  
the order of the day. Blakely, seeing  
how things were going began to shoot  
the ball over the plate and of course it  
was hit out. The dance went on to  
the music of base hits, muffed flies,  
fumbled grounders and wild throws.

### A PRIVATE CAR FOR CHICKS

An Emerald Grove Farmer Wins Many  
Prizes At Many Fairs

James Lilburn, the Emerald Grove  
chicken fancier, is taking about the  
country a car of poultry which he is  
exhibiting at county fairs. His pre-  
miums this year will foot up into the  
hundreds of dollars.

He has recently completed a tour of  
Minnesota, Iowa, Nebraska, Missouri  
and Illinois fairs and will this winter  
visit several eastern cities.

### ASSISTANT FOR F. R. MOULTON

Frank Pechin Will Be in This City For  
a Few Weeks.

Frank Pechin, of Chicago, pas-  
senger inspector for the C. & N. W.  
road is now stationed in this city as  
assistant to Supt. Fred R. Moulton.  
The change is only temporary. Mr.  
Pechin assuming charge of the local  
office during the time required for  
Supt. Moulton to nurse the injuries  
he received in the recent accident near  
Chicago.

### NOTES ABOUT THE LEAF MEN

J. S. HURON has been inspecting  
samples of tobacco in this market.

The new crop is now all in the shed,  
and to all appearances, is curing out  
nicely.

The very hot weather now being a  
thing of the past, the samplers have  
started in again.

S. B. HEDDLES inspected 200 cases  
of '96 at Clinton, and is well pleased  
with the samples.

SOVERHILL & PORTER shipped two  
cars of tobacco this week, one from  
Clinton and the other from this city.

J. L. & M. F. GREEN sampled 300  
cases of '96 this week and found the  
samples as fine as silk and well dried  
off.

G. A. GONF, leaf buyer for John  
Brand & Co. of Elmira, New York, is  
inspecting his firm's buildings at  
Evanston.

S. B. HEDDLES purchased 14 cases of  
'93 and '94 this week. F. S. Baines  
has sold 200 cases of old goods. Sev-  
eral good sized transactions are in the  
process of consummation.

A SCHEME is being perfected by  
which a large tobacco warehouse is  
to be built at Cambridge and it is  
said that Sutter Bros., of Chicago will  
lease it for five years or more.

PACKERS are firm in their holding  
prices and it takes considerable talk-  
ing to convince buyers that they will  
have to pay good prices if they get the  
goods they want.

WORKMEN are busily engaged in  
putting the finishing touches to P. B.  
Grind's warehouse in Deerfield, the  
iron for the roof and sides now being  
on hand. The building will be ready  
for occupancy October 1st.

WHILE the number of transactions  
would indicate a quiet market, there  
is, in reality, a fair amount of activity  
displayed about the warehouses of this  
city. There is a strong call for sam-  
ples and a goodly number of sales are  
under way, looking toward something  
better in the near future.—Wisconsin  
Tobacco Leaf

five people and an orchestra.

A GREENHOUSE 35 by 16 feet is being  
put up by J. C. Biglow for F. N. Law-  
son, corner of Jefferson and Oakland  
avenues in Forest Park. It will be  
heated by a twelve horse-power boiler.  
Mr. Lawson has received a large ship-  
ment of plants and another invoice  
will arrive next week.

### CAKE WALK CROWD LOST \$7

Colored Folks Say Delavan Doesn't Come  
Up To Janesville.

That delegation of "colored folks"  
who made a clear \$200 by giving a  
cake walk in this city, found things  
different in Delavan this week. They  
came out \$7 behind the game and are  
unbaken in their belief that Janes-  
ville is the only bonanza town.

## Nervous

People often wonder why their nerves are  
so weak; why they get tired so easily;  
why they start at every slight but  
sudden sound; why they do not sleep  
naturally; why they have frequent  
headaches, indigestion and nervous

### Dyspepsia

The explanation is simple. It is found in  
that impure blood which is contin-  
ually feeding the nerves upon refuse  
instead of the elements of strength and  
vigor. In such condition opiate and  
nervine compounds simply deaden and  
do not cure. Hood's Sarsaparilla feeds  
the nerves pure, rich, red blood; gives  
natural sleep, perfect digestion, is the  
true remedy for all nervous troubles.

# GREAT GUM CHEWING TOWN

## Janesville People Spend \$1,000 a Year For the Elastic Tld-Bits.

Ninety per cent of Janesville chew gum. So says G. W. Hodgett, the Chicago gum salesman who is now in the city in the interest of the Zemo Manufacturing company of Chicago.

"Fully a thousand dollars a year is spent in this town for chewing gum," said Mr. Hodgett this morning. "The shoe, cotton, woolen and knitting factories employ hundreds of girls and you should remember that the factory girls are among the best patrons. Janesville is the best gum town in this state outside of Milwaukee."

## A BUSY WEEK.

"Bradstreet," which is one of the most conservative business publications in the country, continues to report a remarkable development in manufacturing and business generally throughout the United States. Its today's issue shows that the railroads are so crowded with business as to require an enormous increase in their cars for transporting grain and other products.

Dun & Co. declare that the August excess of merchandise and specie exports over imports, was not far from \$42,000,000, and that the September excess will be large. The statement shows, with the convincing strength of statistical figures, how strongly the trade balance is veering in favor of this country. Of the future the report says:

"Merchandise exports from New York in three weeks of September have been 13.3 per cent over last year's and imports 13.7 per cent less. Like changes on the whole trade for the month would result in net exports of \$53,000,000 merchandise, beside silver.

"Gold imports have begun direct from England and from France, besides the arrival of \$4,000,000 at San Francisco from Australia for wheat exported. The gold received there and started from Europe amounts to \$6,500,000 in two days and the advances of its rates by the Bank of England to 2 1/2 per cent seems little likely to check the movement in view of the heavy merchandise balances due to this country and a rise in the rate of interest here."

Authorities in the several fields give similar testimony. The "Industrial World" reports the markets practically bare of foundry pig iron, owing to the large demand, while the "American Agriculturist" reports the interest on farm loans in the west phenomenally low, having fallen very much as compared with the rates of former years. These conditions, when they are considered in comparison with those of the corresponding period in the Cleveland administration, are all the comment that is needed by way of justification of the action of the people of the United States in last years presidential election.

## ASK MR. BRYAN.

Senator Pettigrew and his silver associates have not yet informed the palpitating public what comfort they got from the Mikado of Japan in their recent interview on Why Japan Demonetized Silver; but if their explanation should not get back to the United States in time for use in the autumnal campaign, the following table showing the true value of the silver yen compared with that of the gold yen during the past decade will probably outline his Majesty's response pretty accurately:

Year.	Value of Silver Yen.	Value of Gold Yen.
1897 (July).....	47.8	99.7
1896.....	52.9	99.7
1895.....	49.1	99.7
1894.....	55.6	99.7
1893.....	66.1	99.7
1892.....	74.5	99.7
1891.....	83.1	99.7
1890.....	75.2	99.7
1889.....	73.4	99.7
1888.....	75.3	99.7

If this does not do the business, perhaps Mr. Bryan might be tempted with a sufficient fee to make a speech on the subject (N. B.—Net price for speeches, \$1,500 ea.)

## FOLLOW THE OLD RULE.

That Hogsaville "affair" in which a respectable colored citizen was brutally shot down from ambush in the darkness because he was a republican and an office holder, is giving the Ohio democrats a good deal of anxiety just now. They had expected to pull into the democratic camp in that state a number of colored votes through cer-

tain misrepresentations regarding the lynching of a colored man in Ohio, but now that the colored men see that the democratic party of the south still considers republicanism and office holding a sufficient warrant for the assassination of colored men, they are in no hurry to get into the ranks of that party.

## PAYING A MORTGAGE.

The situation on western farms have been reviewed by the American Agriculturist. The Agriculturist says: "While newspaper stories have been somewhat exaggerated, it is an absolute fact that the western farmer's financial condition is wonderfully improved. During the past three years he has practiced such economy that with a slight improvement of wheat prices last fall and fair values of cattle, sheep, and hogs, the thrifty farmer gradually reduced his debts. With good prices this fall, he is indeed paying off the mortgage. The fall in the interest rate is as remarkable as the other features of the rising tide."

It was only a short time ago that the government of Great Britain was fiddling fault with us for not being sufficiently courteous in our diplomatic intercourse and now that government has given out for publication in London a long answer to Secretary Sherman's much talked about note on the Behring Sea sealing question, although that answer had not at the time been received by our state department. If that be a specimen of diplomatic courtesy from a British point of view, every American will be glad that our government doesn't make use of such.

The new administration does not find any necessity for selling bonds to keep up the gold reserve. The amount of gold in the treasury since March 4, has been greater than at any time in many years, and is now over \$145,000,000.

## IMPERIAL'S CONCERT NOV. 2

Violinist, Pianist and Soprano From the East To Be Here.

A musical event of much importance is the concert to be given by the Imperial band in the opera house, November 2. Leader Al. Kneff has the arrangements well under way. The band will have twenty-four pieces, and the star feature of the evening will be Maximilian Dick, the well known New York violinist. A soprano soloist and a pianist from Boston will also be engaged.

## Foresters Meet at Peoria.

Peoria, Ill., Sept. 25.—The high court for Illinois of the Independent Order of Foresters met here Friday, with 200 delegates in attendance. A. E. Stevenson, high chief ranger, called the session to order. The exercises of the morning were conducted as a lodge meeting, when the rites were exemplified. The afternoon session was devoted to routine business.

## Crushed by a Landslide.

Port Townsend, Wash., Sept. 25.—The tug Pioneer, Capt. Neilson, arrived here at 3 o'clock Friday morning, direct from Skaguay, with news of a landslide on the Dyea trail last Saturday, accompanied by the loss of several lives. Eighteen in all, seventeen men and one woman, are reported missing, but it is not supposed that more than seven or eight were killed.

## PRIZE MEATS!

and meats that are always prized by connoisseurs, a tender, juicy steak, a choice chop of a prime roast, the only kind that we select for our market. Our meats always give the utmost satisfaction to housewives. Their fresh and wholesome qualities, fine flavor and moderate prices make plenty of friends.

A curious numismatic relic of the epoch of Peter the Great has been presented to the Petrovski Museum at Astrachan. This is a metallic token, or "receipt," granting the bearer permission to wear a moustache and beard. At the Russian town of Reni, at the junction of the Pruth and the Danube, a rich find was made lately of the time of Philip of Macedon, the father of Alexander the great. They are in excellent preservation, and five hundred and twelve of them have already been seized by the police, and sent to St. Petersburg.

## Wheelman in Danger.

A postmortem at Bloomington, Ind., over the remains of Harlow Harvey, a bicyclist, showed that a fall from his wheel developed cancer of the bones. Amputation of the leg failed of relief, and after death it was shown that the disease had penetrated every tissue of the body, destroying the usefulness of the vital organs, besides converting the lungs almost entirely into bone, something almost unknown in medical jurisprudence.

## Appropriate.

A bright little girl who saw three sisters with hair of a rich auburn remarked to her mother:

"Seems to me, mamma, that kind of hair must be redheaditry in that family."—Tit-Bits.

## Monster Fruit Sale.

Not before this season have we had such a supply of fruit on Saturday as fills our store today, the very walls are bulging. As usual every week we clean up for Sunday. All fruit left after eight o'clock goes at your own price. The chances are that after that hour tonight we will have a large quantity of fruit to clear out and unheeded bargains will be plentiful. A little money and a large conveyance to carry off your goods, is what you need if you visit us tonight. No better opportunity for purchasing fruit for preserving will be offered this season; be sure and come tonight. Sanborn & Co.

## NO SLEEP FOR THREE MONTHS

One Cause of Sleeplessness That Can Be Readily Overcome

Mr. Wm. Handschu of 56th St., Cotton Alley, Pittsburg, Pa., expresses himself as follows regarding the new remedy for that common and obstinate disease, piles: "I take pleasure in stating that for three months I got no regular sleep. I became completely prostrated the doctors did me no good; my brother told me of the new remedy for piles, the Pyramid Pile Cure; I purchased from my druggist three 50 cent bottles and they completely cured me. I am once more at my work and put for this excellent medicine I should be on my back. I take great pleasure in writing sufferers from this trouble, who like myself did not know where to look for a permanent, reliable, safe cure.

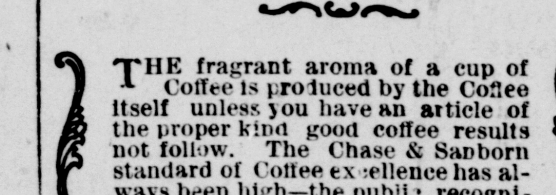

Experience with the Pyramid Pile Cure in the past three years has demonstrated to the medical profession, as well as to thousands of sufferers from piles, that it is the safest and most effective cure ever offered to the public, containing no opiates or poison of any kind, painless and convenient to handle and being sold by druggists at 50 cents and \$1 per box, is within the reach of every sufferer.

Very frequently two or three boxes have made a complete cure of chronic cases that had not yielded to other remedies for years.

There is scarcely a disease more aggravating and obstinate to cure than the various forms of piles and it is a common practice to use ointments, salves and similar preparations containing dangerous poisons to remove the trouble. The Pyramid has superseded all of these ineffectual remedies and no one suffering with any rectal trouble make any mistake in giving the Pyramid a trial.

If in doubt as to the nature of your trouble send to the Pyramid Drug Co., Albion, Michigan, for a valuable little book on piles, describing all forms of the disease and describing the method of cure.

Any druggist can furnish the Pyramid Pile Cure as it is the best known and most popular remedy for piles and if you ask him he can doubtless refer you to many people in your vicinity who have been cured completely by it.

## Are You Wedded . . .

To any particular Hat Store, or do you seek the place where the best goods can be found? ? ? ? ?

We don't know much about selling groceries or shoes but we have made a study of Hats for years. That's why this store has gained the reputation of being the best Hat store in the city. Men of taste like to buy here. Don't cost any more for that extra touch of style and quality here than for the cheap grade of Hats in many establishments.

Pretty nearly everybody knows what the Stetson Hat is. It's always correct in shape and it always is the very best in color, and at the end of six months wear you will still have a Hat that is nearly as good as new. Such is the experience of the wearer of the Stetson Hat.

The popular shapes this fall are the Miller, Lisbon and Philadelphia, of which we show cuts.

Notice a display of fine and medium grades of Hats in our show window. . . .

## MARKET DAY GAMES DREW THE HARDEST

### AMUSEMENT PROGRAM THE STRONG ATTRACTION.

Visitors Preferred That to the Exhibition and Did Not Make as Large Entries as Had Been Hoped For—Names of Those Who Won Prizes.

Market day made this a busy Saturday. Farmers drove in early with their stock, grain and provisions and stayed all day so to miss none of the games or entertainments.

The exhibits were divided, there being no place large enough for the accommodation of all. Horses, cattle and sheep were sheltered at the Exchange on East Milwaukee street and here the auction sale was held at 2:30 o'clock. The committee in charge of the exhibits at the Exchange included Fred S. Sheldon, F. L. Clemmons, J. H. Burns, E. H. Brooks, W. T. Dooley, Dr. E. D. Roberts and P. J. Mout. The horses were exhibited at 2 o'clock, the display attracting much attention.

Games and races followed the award of prizes for drivers, draft and work horses.

George M. McKey had general supervision of the rink where the grain, dairy and domestic displays were made. He had as assistants George D. Simpson, W. P. Sayles, Robert M. Bostwick, W. E. Evenson and L. D. Prichard.

In other departments prizes were awarded as follows:

Four Largest Ear Corn—1st, F. B. Adams; 2nd, John Stockton; 3d, James Little.

Half Bushel Pop Corn—1st, W. C. Kirkpatrick; 2nd, C. E. Duke.

## WAR RUMOR IN WASHINGTON

Washington, Sept. 25.—[Special].—Alarming news is in the air with regard to Cuba and Spain. President McKinley, it is said, has been called back post haste. It is believed that Spain has taken an aggressive stand. It is also rumored that Minister De-Lome has been recalled.

Choral Union.  
All the musical people of Janesville, interested in a Choral Union, are invited to meet J. H. Kowalski at 7:30 Wednesday evening at Christ church parish house. A full attendance is desired at this meeting that work may begin at once.

## JUDGE PHELPS BUSY WITH MALEFACTORS

### HARRY HAMMAS CASE NOT YET OPENED.

**Bunch of Hard Citizens** Tell Their Stories and Are Given Sentences in Accordance With Their Deserts—Teresa Jones in the Toils.

**Henry Hammass,** charged with stealing a horse in the town of Lima, appeared in the municipal court this morning. By consent, the case was adjourned until September 28, for drawing a jury, and September 29, for trial.

In the action of Lazarus Scharff et al., vs. J. B. McLean, judgment was rendered for the amount of claim, \$377.95. The action was for the recovery of goods sold by L. & A. Scharff to J. B. McLean. Fethers, Jeffrie, F. Field & Mount appeared for the plaintiff. There was default on the part of the defendant.

A number of Midway repeaters were lined up before his honor this morning. They had all been there before, some of them several times, and did not blush when called upon to acknowledge the fact.

The first was John Hughes, whose night in jail failed to steady his nerves. His last previous offense was committed in the spring, and upon the expression on his part of a very earnest desire to get back to the farm, he was let off with a \$1 fine and costs, total \$2.00. Fortunately for Hughes he was arrested before he had an opportunity to convert all of the one hundred cent dollars he possessed into \$500 license whiskey and he is now "far from the gay city and the haunts of men."

John Conroy, a youthful thorn in the flesh of the police force, said he was twenty-one years of age. When asked to plead to the complaint, said he was not on River street as charged. Gradually it began to dawn on him, that he was in such a condition that he did not know where he was when taken under Chief Hogan's wing, and he pleaded guilty. His last appearance at the bar of justice was three months ago. It was intimated to the court that the most of the time in the interim had been spent around the saloons and he was given five days at the county jail to formulate good resolutions. He was warned that sterner penalties awaited any further departure from sobriety.

Benjamin Dixon, whose face has become as familiar in the municipal court as the big calendar which hangs on the walls, pleaded guilty to a charge of drunkenness and volunteered the information that he had been straight for two weeks. He was asked how much of that time had been spent at the county jail and seemed at loss for an answer. The court thought it fitting that he be given another fortnight between drunks and sent him down to Sheriff Acheson.

Teresa Jones' liberty granted to her a week ago was short lived. The charge this time was disorderly practices. She pleaded not guilty and called for an immediate trial. When she was confronted with an array of witnesses, not all of whom were officers, she weakened and changed her plea to one of "guilty" and was fined \$10 and costs, a total of \$12.91. She was given the afternoon for which to raise the funds.

## A WILL AND THE WAY

Existence under the guardianship of some one who is doing his duty by you is not an unmixed pleasure. Miss Bradford's sister, Mrs. Gallatin, was doing her duty by Miss Bradford. The former was not at all pretty. The latter was very, very pretty, which is so much more charming than being very, very beautiful. But Mrs. Gallatin was married and Miss Bradford was not. This came of the fact that Mrs. Gallatin had visited at Fort Preble and had captured an unfledged lieutenant by maneuvering and a miracle, and that Miss Bradford had spent her 21 years in a small Maine town.

Boys in the village had been in love with Bessie Bradford, but she had not been in love with them, and she had, moreover, a decent appreciation of her own value and knew she was far too good for such as they. There had been a college youth, also, once, but he and she had quarreled before the end of his summer visit. And now Bessie was one-and-twenty, and the family worried. It worried itself into a state where even the raising of a mortgage on the home did not seem too great a thing, if it would but insure her marriage. With the money thus obtained she was sent across the continent with instructions to get herself wedded before she came back. Those things are treated as business in New England hamlets. She was told to marry a general if she could. If not, anything, down to a second lieutenant.

Lieutenant and Mrs. Gallatin lived in the building known as the Corral. If the Corral were in the city, it would be called a tenement. But Uncle Sam does not quarter his officers in tenements. The Gallatins were cramped for room—very cramped. They had three children and second lieutenant's pay, so they were poor. Therefore taking Miss Bradford in was not a pleasure. It was a duty, and Mrs. Gallatin would not have been a New Englander if she had not done her duty.

But Bessie felt the unpleasantness of the situation the very day of her arrival. "Captain Soutter is going to take you to the hop this evening, Bess," Mrs. Gallatin said. Bessie was cutting paper bird cages for her niece. Mrs. Gallatin was mending a pinafore.

"I've promised to go with Mr. Milford," answered Miss Bradford, stopping and looking up from the scissors.

"Mr. who?"

"Mr. Milford. Colonel Milford's son, who lives in St. Louis."

"Where have you met him?" The "him" warned Bessie that she was running on rocks.

"On the train. We got acquainted. He's in business in St. Louis, and he's coming to visit his people because he's in bad health. He is a very nice man."

"Man! He must be about 23. A perfect boy! And his business is being a briefless barrister. Now, let me tell you one thing, Bessie. You must learn from the first that the civilian son of an officer is nobody at all in a garrison. You will hurt your chances badly with the officers by going with him. How did he know there was to be a hop?"

Bessie finished opening the cage, gave it to her niece with a kiss, gathered the scraps of paper in her hand and threw them into the wastebasket, clasped her fingers behind her curly brown head and answered leisurely: "He didn't know there was to be one tonight. He asked me to go to the first one there should be after our arrival."

Mrs. Gallatin thought how very, very pretty Bessie was and wondered if her husband contrasted them.

"He probably will never think of it again. Captain Soutter is going to call to ask you this afternoon, and you'd better accept."

"Can one go with two men out here—antenuptially?"

"Don't be vulgar. You needn't consider the Milford boy."

"Oh, but I must, Genevieve, you know. I promised." Miss Bradford's big gray eyes were guilelessly earnest.

"I've no doubt that pose is taking with the men, but you can't make your devotion to promises succeed with me, dear. I know you too well. I can't remember that they worried you with the boys at home."

"This promise don't worry me; not a little bit."

"Well, I should suggest that you take my advice and be less flippant. Recollect that you were not sent away out here to flirt with penniless civilians and small boys."

"If I forget, remind me, will you? I'll make you a little red silk flag, if you like. I can make flags. I made one for a fair at home once. You might draw it from your bosom and wave it when you see me about to run off the track you have all so kindly and laboriously laid for me to run on. I'll teach you the signals. Mr. Milford and I studied them from the back of our sleeper. I think there's some one at the door, sister dearie."

It was Captain Soutter, come to formalize the hop arrangement. He was obviously very glad that he had come. For Miss Bradford was pretty—extraordinarily pretty.

"I am happy in being a near neighbor of yours, Miss Bradford," he told her. He forgot, as men will, how often he had cursed the ill luck which threw him within hearing distance of the Gallatin trio of infants.

"Yes?" said Bessie. "You are in our vicinity, then?"

"A little above you in the world. I live up stairs. When you want me, you have only to pound on the ceiling."

"The—what is it—quartermaster? The quartermaster mightn't like me to wear out his ceiling."

"You flatter me by the implication, Miss Bradford. But I'll settle with the Q. M. if you will only pound. For instance, will you pound tonight when you are ready for the hop, to which it is my dearest wish to be permitted to escort you?"

He forgot what he had wished when Mrs. Gallatin had asked him to perform

this act of courtesy toward the coming sister. But then he had looked at Miss Gallatin and had judged from her of the sister.

"I would be only too delighted if it were not that I have already promised to go with some one else."

The betrayed captain manifested astonishment and resentment at having been subjected to refusal. He had high opinion of his dignity, had the captain.

"Why, who on earth can have asked you already?" he cried.

Miss Bradford had a cool lit beneath her air, when she liked. She considered the captain's question in bad taste, she raised her eyebrows and smiled most sweetly. "I shall hope to dance with you, Captain Soutter," she said.

And she had not one, but three. The captain forgot his wrath at the sight of her. When she came from the door into the room into the hallway to join Mr. Milford, the captain was by the door. He looked at her.

"Might I hope to be accorded a second and fifth and ninth, Miss Bradford?" he asked.

"Oh, thank you," said Bessie. She was grateful, and he was quite appeased. Now Miss Bradford was a success.

She had what is known as a beautiful time for three whole months. No girl was remembered ever to have received altogether so much attention. She always had lovers, and the two don't always go together. Captain Soutter loved her, so did Lieutenant Paxton, and so did young Milford. Bessie loved young Milford. A girl who prefers "cit."

clothes to a uniform is peculiar, to say the least. Bessie didn't say or show whom she loved, except to Milford. She had told him. She had refused Paxton, and she was warding the captain off. But the last she could not do much longer. The captain had a good opinion of himself.

He also had a dignity which was not to be trifled with. Mrs. Gallatin was by no means sure of Miss Bradford, so one day she spoke to her. The process of being spoken to can arouse the worst in a girl. But Bessie was in a broken and contrite frame of mind. She and young Milford had quarreled, and she didn't care what became of her. She might as well marry any old man and sacrifice herself for her family. She made a most affecting picture of herself as an offering on the altar of matrimony and filial duty. She would pine away picturesquely in a year or so, and Will Milford—well, perhaps he would go to the devil. She hoped so. It was under this pressure that she solemnly promised and swore to Mrs. Gallatin to marry Captain Soutter if he asked her. What Miss Bradford promised and swore she never broke.

So as soon as she and young Milford made it up she set about wondering how Captain Soutter was to be kept from asking her. Yet she could not arrive at any plan. The captain was an impetuous southerner, and he was neither over well bred nor nicely discriminating. Bessie was worried. If it had been that she had promised and sworn anything to young Milford and had had to choose which vow to break, she would not have hesitated. But she had teased him and had only answered "maybe," for which she now suffered.

But fate came to her aid, as it always should and always don't in the case of a very pretty girl.

She was going to another hop, and she was going with Captain Soutter. He had invited her at the time that she was practicing for the martyr role. As she couldn't, therefore, go with Milford, she would wear the gown he liked, which was white silk. For it she had to have white gloves, and her white gloves were soiled. Therefore they must be cleaned. Miss Bradford was an adept at cleaning gloves. She prepared a special mixture of a number of chemicals and powders. This mixture had to be whipped up—as if it had been the white of eggs—very light and frothy. It had a most unpleasant odor, but it was pretty to look upon. Because the odor was so unpleasant, Miss Bradford opened the door into the hallway and stood just within it, beating.

There was air in the hallway, and there was none in the Gallatins' quarters, as the baby had a cold. Captain Soutter had a cold, too, a frightful one. If he had not had, he would have noticed the smell of Miss Bradford's mixture. He came through the hall on his way to his own quarters on the floor above. Colonel Milford was with him. The captain didn't like the colonel particularly, on account of his being his son's father.

"Ah! Miss Bessie! What a pretty, housewifely picture we make," said the captain.

Bessie smiled encouragingly.

"What are we doing? Whipping cream? How good it looks. If Hebe would but feed us with ambrosia."

The colonel smelled the ambrosia, but he held his peace.

"I'll give you a taste, captain, if you want it very, very much. Open your mouth wi-i-de. Shut your eyes."

She put a heaping forkful in his mouth. The horrible taste made him gasp. The gasp made him swallow the froth. Colonel Milford laughed. But Captain Soutter went to his quarters without a word.

Bessie went to the hop that night, with young Milford. Afterward, while she and her sister and Lieutenant Gallatin were having their supper of tea and crackers and cheese, Miss Bradford told them that she was going to marry the penniless civilian.

"But how about Captain Soutter?" wailed Mrs. Gallatin.

"Hush! He might hear you. Oh, I'm awfully afraid he'll never speak to me again." And he never did.—Gwendolen Overton in Argonaut.

## IN UPPERTENDOM.

Russian ladies who want to ride the bicycle find themselves between Scylla and Charybdis in the matter of costume. They must choose between the hated Schariawar and the reform costume. It came about one very windy week when the fashionables were wheeling through the St. Petersburg parks that the skirts of the wheelwomen became inflated and caused much amusement to the little grand dukes and future grand duchesses who were strolling about in care of their nurses. In consequence the great government deliberated and announced that all women who rode wheels should wear either the Schariawar—a jacket and medieval white pantaloons—or the reform, a garment in which trousers and jacket are one. Just what the unfortunate ladies have to say has not been cabled.

Society people and fashions are made more of a feature in the English journals than in America, and columns and columns of "copy" are printed every week which an American public would scorn to read, so carelessly is it prepared and so marred by slavish adulation. For instance, here is a sample of the original and brilliant manner in which a big ball and some smaller entertainments were written up by the London World:

"The duchess of York danced a good deal and looked very handsome (I think she wore pink), and she had on lovely jewels. Miss Muriel Wilson looked very handsome and Miss Enid Wilson very pretty. Mrs. Wilson wore some wonderful turquoises. There were one or two very remarkable lancers toward the end of the ball. I hear no one was injured, which might just possibly have happened, but they danced with a spirit and enjoyment quite indescribable. It is very nice to see young people enjoy themselves, and nowhere do they enjoy themselves more than at Derby house."

"Mrs. Percy Wyndham had a small party that night for the duke and duchess of Teck. The duchess was looking very well—her gray hair is so becoming. Mrs. Laurence Currie looked lovely and so did all the daughters of the house. Lady Cowper was looking magnificent and Lord Cowper much better. Lady Londerderry was looking magnificent in white and pearls. Mrs. Henry White looked prettier and more graceful than ever. Lady Randolph Churchill looked wonderfully handsome and the duchess of Portland very pretty. Lady Georgiana Curzon sat next to the prince, who was very gracious."

A marriage occurred at Rheims a couple of weeks ago which is of interest, if not literally to all the world, at least to every one of its politer sections. The participants were the Comte de Mun and Mdle. de Werle, young people of whom in this part of the planet few have ever heard, and yet who are none the less significant. But the names of some of the guests are tolerably familiar to us all. There was the Comtesse Roederer, the Comtesse de Montebello, the Duchesse d'Uzes and the Marquis de Champagne. It was a gathering of the brands. The bride is a descendant of the house of Cluquot. The founder of that house, the celebrated Veuve, was the daughter of a cloth manufacturer. Her husband, Cluquot, was a banker. It was as a pastime, for the fun of the thing, that he became an amateur wine grower and sold to friends and acquaintances the products of vineyards situated in the then little known district of Champagne. When he died his widow was but 28. Her resources were meager. What had been but a recreation to her husband became a business to her. She invented a process for clarifying wine, improved its quality and made her label known. That was the latter part of the last century. She had one child, a girl, whose granddaughter is the present dowager duchess of Uzes. Werle, the grandfather of the bride of last week, entered the house of Cluquot as an employee. In 1821 he became a partner and in 1866 sole proprietor of the brand. Monarchical in principle and conservative in ideas, he was the last of the other champagne makers to fall into line and produce dry wine instead of sweet. But change he did and the cups drunk at the wedding were of that variety which is known as Brut.

"Ah! Miss Bessie! What a pretty, housewifely picture we make," said the captain.

Bessie smiled encouragingly.

"What are we doing? Whipping cream? How good it looks. If Hebe would but feed us with ambrosia."

The colonel smelled the ambrosia, but he held his peace.

"I'll give you a taste, captain, if you want it very, very much. Open your mouth wi-i-de. Shut your eyes."

She put a heaping forkful in his mouth. The horrible taste made him gasp. The gasp made him swallow the froth. Colonel Milford laughed. But Captain Soutter went to his quarters without a word.

## COLORED WOMAN LAWYER.

Miss Lytle Is the First in the United States.

Miss Lutie A. Lytle, a young mulatto woman of Topeka, has the distinction of being the only colored woman lawyer in the United States.

MISS LUTIE A. LYTLE.

yer in the United States. She was the first woman to be admitted to the bar in Tennessee, where she obtained her legal education, and now she has returned to Kansas, where she means to practice her profession. But Miss Lytle does not mean to depend on fees alone. She has designs on some of the offices which the state legislature has to dispose of and she means to break into politics. She does not choose Kansas as her field of operations merely because it is her home, but mainly on account of the fact that in the Sunflower State her sex will be less of a handicap than in other commonwealths.

Miss Lytle is 23 years old and is intelligent and good looking. Her father was, before the war, a slave on the estate of Colonel Patrick Sloane, near Chilhowee, Tenn. About 20 years ago he moved to Kansas and engaged in business. He has been successful and is regarded as the richest colored man in the state. Lutie was given the best of educational advantages and improved them. In 1891, through her father's political influence, she was appointed one of the engrossing clerks for the legislature, and this experience in office holding led her to be ambitious for a further public career.

She decided that in order to be properly equipped for the struggle she should be a lawyer, so she went to Nashville and entered the Central Tennessee college, an institution for the higher education of colored students. There she took a two years' law course and last spring was graduated with high honors. She was the class valedictorian and was not only furnished with a diploma, but with a license granting her the right to practice in any of the courts in Tennessee. The other day she went to Memphis and was formally admitted to the bar. Since then she has returned to Topeka, where she has opened a law office, and during the next campaign she may be expected to take no small part.

## HEAD OF THEOSOPHISTS.

Diamond Merchant Neresheimer Succeeds Ex-President Hargrove.

Edward August Neresheimer, the newly selected acting president of the Theosophical Society of America, was formerly vice president of the organization and is considered to be well versed

EDWARD AUGUST NERESHEIMER.

in mystical lore as well as on speaking terms, at least, with the mahatmas. He is a mild mannered, gray haired, blue eyed man of about 50 years and a diamond merchant by profession. His home is at Rye Side, N. Y.

Mr. Neresheimer was born in Munich, but has been an American citizen and a New York business man for many years. He is an excellent musician, plays several instruments with skill and has a fine baritone voice. He has a son who is studying medicine in Columbia college and a daughter who is seeking a higher education in the Villa Marie institute, Montreal.

More than a score of years ago Mr. Neresheimer became interested in theosophy and was one of the founders of the society in this country. He has held various offices in the society and has taken an especial interest in the theosophical college at Port Loma, Cal., an institution which, by the way, the theosophists call by the high sounding title of the School for the Revival of the Lost Mysteries of Antiquity.

Mr. Neresheimer was chosen to fill out the unexpired term of ex-President Hargrove, who recently resigned to return to England, where he will drop theosophy and resume the practice of law, which he had just begun when he came to this country to take the office which he now gives up. It is hinted that Mr. Hargrove's father, who is a prominent English barrister, threatened to stop his son's allowance if he did not quit the mahatmas and settle down to business. Mr. Neresheimer will serve until April, 1898, when another election will take place.

The Barber a Mechanic.

The supreme court of Louisville has decided that barbering is not a profession, but a mechanical pursuit.

## A NEW NATIONAL HYMN.

America Needs a Song and an Emblem.

Two things which America lacks and which, from the standpoint of sentiment, seem to be among the essentials of every country are a national floral emblem and a national hymn, says the Philadelphia Times. Respecting the first there exists so much difference of opinion that little prospect of an immediate settlement of the vexed question exists. As to a national hymn everybody confesses its need and in these circumstances it is surprising that no authoritative steps have been taken to rid the country of what may not improperly be regarded as a reproach. From time to time compositions that aim at being enshrined as the nation's hymn appear in print, but up to this time there has been produced nothing which appeals to the American heart as do the national hymns of Germany or France or England to the natives of those countries. Now, however, a new hymn, aspiring to be strictly national, has been given to the public. It is called "Sound Forth Again the Nation's Voice" and those competent judges who heard it sung in Independence square during the Fourth of July celebration say that in every respect it is entitled to the proud place of the national hymn. This composition is the work of two Americans. The words, which in their imagery and sentiment are thoroughly American, are by Thomas Wentworth Higginson and the music, which is in the meter of "Old Hundred" and exceedingly simple and harmonious, is by Charles Crozat Converse. This gentleman, who is a native of Massachusetts, graduated from Leipsic in music in 1857 and in law in 1861. He is the author of several publications on musical and literary subjects and several hymns composed by him have become popular and are very well known.

## A Jest That Cost a Life.

Generally speaking, the strong have refused to put up with jesting from the weak. The Czar Nicholas, who had some fine qualities, was hardened against an act of clemency he meditated by the undaunted spirit of a prisoner. Relief, a man of letters, had been implicated in the conspiracy of December, 1825, and sentenced to be hanged. He was actually launched from the fatal ladder, when the rope broke, and he was thrown to the ground, severely bruised, but conscious. He picked himself up, and said quietly:

"They can do nothing in Russia, not even twine a cord properly."

It was formerly the custom in Russia to grant a pardon to the condemned, who seemed to be thus saved by the special intervention of Providence. Nicholas was informed of the accident, and his pleasure demanded.

"What did Relief say?" demanded the emperor.

"Sire," replied the messenger, "he said they could not even twine cord properly in Russia."

"Prove him to the contrary," rejoined Nicholas.

## The Duke Was a Stickler.

The Duke of Wellington was a great stickler for punctilio in what seemed to him the proper places. When the regiment of his son, Lord Douro, was quartered at Dover and the duke was staying at Walmer castle, the officers rode over and left their cards as a matter of form. Soon after came an invitation from the Duke of Wellington inviting all of the officers to dine, but ignoring his own son. When Lord Douro asked for an explanation the duke gave it thus, with great good humor: "I make no distinctions in the service. Those gentlemen paid me the compliment of a visit, and I invited them to dinner. You were not among them, so I omitted you in the invitation."

## Bicycle Patents.

Nearly one-fourth of the patents granted at this time relate to the bicycle. There are all kinds of devices from small tools to the whole wheel. So many kind of wheels are made and the wheels are used for so many purposes that patents concerning the various parts are very numerous. Almost every use to which a wheel is put will point the way to a patent to improve the service. Then there are constant experiments in chains, handle bars, spokes, tires, frames, pedals, and, in fact, every part of the machine. It would seem that with so many patents issued every week the bicycle would soon become perfect.

## Wandering Wits.

The mathematical professor who put a piece of beefsteak on the bottom of a breakfast plate and passed it to a guest has a rival in Boston, whose last eccentricity is narrated by Harper's Bazar. He is of a "wool gathering turn of mind." One day he entered a grocery store with his baby on one arm and a kerosene can in his hand. Setting the can down on the counter he said, gently:

"Sit there a moment, dear," and holding the baby out to the dazed clerk he said:

"A gallon of kerosene in this, please."

## NOT PRACTICAL ENOUGH.

A Tender-Hearted Woman Who Took a Viper to Her Bosom.

"I'm afraid I will never be a practical business woman," sighed an estimable Detroit lady, whose fear is based upon experience, says the Detroit Free Press. "I am so constituted that sympathy largely controls my actions. There are times when I would like to be soulless for a brief period, just like a corporation, or could close my eyes and act with the calm impartiality of justice when she's unmoved by mercy."

"I endorse the sentiment of Shakespeare that ingratitude is worse than lying, babbling, drunkenness, or any taint of vice whose strong corruption inhabits our frail blood." I have the renting of some property for a sister living in another city. For months it was occupied by tenants who could not pay their rent. Moved by pity I permitted them to remain, though reminded at intervals by my sister that she had the house as a source of revenue and should be realizing. She became so insistent that I quite insisted upon the occupants paying me some money. But they pleaded poverty and I don't know but my feelings induced me to give them a little help when I called on business in my capacity as agent. At length I was so prodded by my principal that I really initiated to the tenants that they must settle or find another abiding place.

"At this critical juncture, when I was losing sleep over the situation, the wife of the tenant fell downstairs and was injured. It was not in my heart to worry them under such circumstances, so they concluded to worry me. They attributed the accident to a defective stairway and sued for damages. We were not only put to the annoyance and expense of a lawsuit, but they secured a verdict for a considerable sum. And it's all because I am not strictly business. If I were they would have been evicted and we would at least have been spared the expense, put upon us by a flagrant case of ingratitude. I am now debating whether to retire from the business world or turn cold-blooded."

## T. B. Reed's First Speech.

The one which opened Reed's way to fame as a man was short. It was delivered not long after he began his career in congress. He had not up to that time taken much part in debate, but one day, while he was making a somewhat labored argument, an older member tried to break him up by putting a question to him suddenly and demanding an immediate answer. Reed gave the answer readily. Then he paused, turned toward the speaker's desk and drawled out:

"And now, having embalmed that fly in the liquid amber of my remarks, I will go on again."

The house roared. The galleries took it up. The newspaper correspondents sent it flying all over the country, and, to his own surprise more than any one's else, Reed found himself a man of note from that hour.

## A PIONEER SHOEMAKER:

WORKING AT HIS TRADE ALTHOUGH EIGHTY-FIVE YEARS OLD.

Mr. James McMillen, of Champaign, Has Followed the Shoemaker's Trade All His Life—Every Day at His Bench Working with Apparently the Same Vigor as a Young Man—A Sketch of His Life.

From the Gazette, Champaign, Ill.

At the advanced age of eighty-five years, James McMillen, of 112 West Washington street, is one of the most active men in Champaign, Illinois. Mr. McMillen is a pioneer citizen of the city, and his form is as familiar on the streets as that of any citizen of the town. All his life Mr. McMillen has followed the trade of shoemaker, and every day finds him at his bench, bending over his work with apparently the same vigor he commanded when he was a young man.

He has a little shop on North Wright street, in the vicinity of the University of Illinois, and he is the official shoemaker, as it were, for the students of that institution.

About a year ago Mr. McMillen was absent from his bench for several weeks, and his familiar form was missed along the streets. The local newspapers announced that he was dangerously ill. For months he was a sufferer, but finally he appeared again at his shop, and has lost but very few days since then and none, perhaps, on account of sickness. His friends were surprised to see him out again, and they were more surprised when he told them the cause of his recovery.

There was no small amount of local interest in his case, and a reporter visited him, to have him relate the story.

"I feel," said the spry old gentleman, "that I owe my life to Dr. Williams' Pink Pills for Pale People. Something like a year ago it appeared to me that I was almost a physical wreck. I was suffering from a disease of the kidneys. A thick scurf had formed on the bottoms of my feet and my ankles were terribly swollen and inflamed. In fact, they reached such a condition that I could not walk, and it looked as though my days were numbered."

"I read in the newspaper testimonials from people who claimed to have been cured of kidney trouble by the use of Dr. Williams' Pink Pills for Pale People, and thought that it would do me no harm to give them a trial. I bought a box of them at the drug store and began taking them according to directions. It may seem strange, but it is a fact that I felt the benefit of them almost as soon as I began to take them. After I had taken a few pills my urinary discharges became almost as black as tar and I noticed at the same time that the pain and soreness were leaving my kidneys."

"A few days later the swelling began to go out of my ankles, and at the end of five weeks it had entirely disappeared, taking with it that terrible scurf which had formed on the bottoms of my feet and caused me so much trouble. I continued to gather my lost strength, and at the end of six weeks I felt entirely recovered and resumed my work at the shop. I think I took from four to five boxes of the pills and have taken none since."

Mr. McMillen's residence on West Washington street, is more than a mile distant from his shop, but nearly every day he walks the entire distance, morning and evening, and he could not do this if that swelling still existed.

Mr. McMillen has no backwardness in talking of the merits of Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills for Pale People contain in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box, or six boxes for \$2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

# A WHIRLWIND IN FRUIT

This is the night for our regular weekly Fruit clean-up and there has not been a Saturday so far this season when we have had such a complete variety of Fruit in such quantities as we have today. The very walls are bulging out with Fruit and the chances are that much of it will not be sold by eight o'clock tonight. After that hour the knife goes into prices. Everything sold regardless of cost. Any price to clean up before Sunday. A little money and a large basket will do the business.

Plenty of Crawford Peaches, 25c a basket.

Fancy California Tokay Grapes, 25c a box.

WE HAVE A LARGE AND VARIED ASSORTMENT OF:

Crawford Peaches,  
Bartlett Pears,  
Fancy Lombard Plums,  
California Plums, Tomatoes,  
Cranberries, Bananas,

Niagara Grapes, Delaware Grapes,  
California Tokay Grapes,  
Apples, California Muscat Grapes,  
Sweet Potatoes,  
Celery, Hubbard Squash

Our store may well be likened to South Water Street, of Chicago. We are headquarters for Fruit.

You will see a great sale this evening. Better happen around if you want a lay-out for Sunday meals at about your own prices.

The store of the people.

## A Right-Arm Slash At Stoves...

THE LEADER comes to the public aid at an opportune moment; high prices on Stoves and Ranges a thing of the past. The buyer this fall will have a chance to purchase a Stove at a cheaper price than ever before. THE LEADER has over seventy five patterns of Stoves; every one different and any of them as good as can be bought. The famous **SUNSHINE STOVES AND RANGES**; a written guarantee with each one against fault or defect of any kind. The factory guarantees them and on top of that is our personal guarantee. You use them and (as with every other article we sell) if not perfectly satisfactory we refund the money most cheerfully.

### NO. 8 SUNSHINE STEEL RANGE

With high back shelf and reservoir, beautifully nicked and finished; the nicest castings you ever saw. Such quality never before sold in the city for less than \$35 to \$40. for..... **\$24**  
A bargain if you ever saw one.

### NO. 8 SUNSHINE RANGE

Large oven, nickel plated tea shelves and trimmings, latest improvements; one of the best castings ever put on the market, and a Stove that would bring joy to any woman's kitchen; easily worth \$27, only..... **\$19**

Wood Cooking Stove No. 8, worth \$17, finished in a manner and made up of material that would pull that price for it to most any other dealer; we ask only \$10. **Pearl Sunshine 5-hole Range**, nickel trimmed front and tea shelves, large back shelf, tasty style and design, burns either hard or soft coal or wood; anywhere else in the city \$20 or \$21; we ask only \$14. All our cook Stoves we guarantee to burn soft coal as well as hard. We have just the Stove for the bedroom these cool fall mornings and evenings, nickel ornaments, will burn hard or soft coal or wood; only \$2.75, if you see it you will buy it because it is a great bargain. A cheap priced Stove, but a good one, is the "Air Tight," three sizes; \$3.50, \$4.00 and \$4.50; the same as you always pay \$4.50, \$5.50 and \$6.50 for; will burn anything from a piece of wood to an old boot and hold fire forty eight hours; no ashes; no dirt; almost runs itself; the cheapest the Stove ever sold for in the city. **Our Sunshine Round Oaks**, the finest in the land, all sizes, will burn chips, logs, chunks, anything, and lower in price than you ever dreamed.

We can't begin to tell you all about our Stoves; we want to give you an idea of what we have; we want most of all for you to see the stock before you buy; get all our prices and make comparisons; common sense will tell you what to do. Mr. Adam Sanner, a hardware and stove man of a lifetime's experience, has entire charge of this department. He sees personally to the setting up and starting off of each and every Stove; he understands his business thoroughly, therefore you may rest assured the work will be skillfully done. A word from him as to good points in Stoves is a sufficient recommend; come and talk with him. We exchange new Stoves for old ones where you desire it. We make Stove buying of us an easy matter. We want your trade. Steel polished Stove Pipe, 8c a length. Repairs and repairing of all kinds. Setting up Stoves a specialty, at half the price of other dealers.
